Well Project Extension

Mayor Ziegler said he spoke with Engineer Knutson. According to Rubin Construction if the City delays the project there will still be costs as change orders. The City would accrue a cost in December of roughly \$150K which is a part of the contract. Rubin Construction wouldn't do the well until spring, but they would need to do a few things to get ready. Mayor Ziegler said there is currently about \$284K in the Reserve Future Projects Fund which would cover the cost of the well. All the council would need to do was approve the extension if they wanted to move forward with the well project as is.

Councilor Edwards made a motion to extend the contract with Rubin Construction for the Well Project. 2nd by Councilor Finney. All approved. Motion carried.
