- a. A non-conforming use or structure may be continued but may not be altered or extended.
The extension of a non-conforming use to a portion of a structure which was arranged or designed for the non-conforming use at the time of passage of this ordinance is not an enlargement or expansion of a non-conforming use. A non-conforming structure which conforms with respect to use may be altered or extended if the alteration or extension does not cause the structure to deviate further from the standards of this ordinance.
- b. If a non-conforming use is discontinued for a period of one year, further use of the property shall conform to the requirements of this ordinance.

owner of affected property within 350 feet of the property to which the amendment relates, the City Council, and the Planning Commission members. The failure to give notice to individual property owners, or defects in the notice shall not invalidate the proceedings, provided a bona fide attempt to comply with this has been made. A copy of the notice and a list of the owners and addresses to which the notice was sent shall be attested to by the Zoning Administrator and shall be made a part of the records of the proceedings.

- d. The Planning Commission shall hold the public hearing and make a recommendation to the City Council based on facts, not opinions.

Subdiv. 3. Grounds for a Variance

A variance is a legally permitted deviation from the strict terms of the zoning ordinance regarding dimensional regulations (height, bulk, density, setbacks, size of structure, or yards). A variance does not apply to the use of the land. A variance is only approved in

the event that strict enforcement of the ordinance would result in undue hardship for the applicant and ALL of the following finds are met:

- a. The property cannot be put to reasonable use if used under conditions allowed by the zoning ordinance.
- b. The plight of the landowner is due to circumstances unique to his property not created by the landowner
- c. Granting the variance will not alter the essential character of the locality.
- d. Economic considerations alone shall not constitute an undue hardship if reasonable use for the property exists under the terms of the ordinance.
- e. Undue hardship also includes, but is not limited to, inadequate access to direct sunlight for solar energy systems.

Subdiv. 4. Procedure for an Appeal or Variance

 - recommend approval of the request with conditions
 - recommend denial of the request
 - table the request
 - continue the public hearing another date to provide additional time to obtain further information
- f. The Board may hear and approve exceptions as specifically authorized below, which are in harmony with the purposes and intent of this ordinance and which will not adversely affect the public interest. The following exceptions may be granted by the Board, after application and the required public hearing is held:
 1. The location of a temporary building for commerce or industry in a residential district which is incidental to the residential development. Such permit to be issued for a period of not more than one year.
 2. The location of a temporary sign pertaining to the development of land upon which the sign is located, provided it is not located in a required front yard. Such permit to be issued for a period of not more than one year.
 3. The enlargement, erection, and use of a building or the use of premises in any location for public utility purposes, not otherwise allowed by this ordinance,

which the Board deems reasonably necessary for the public convenience or welfare.

4. A reduction of the parking requirements of this ordinance whenever it has been clearly demonstrated that the provision of the full parking facilities is unnecessary, or where such a requirement would impose an unreasonable hardship upon the use of the lot, as contrasted with merely granting an advantage or a convenience.
5. The placement of required parking spaces on a parcel separated from the parcel upon which the building or use served by such parking spaces is located, provided that the parking spaces are sufficiently close that they will serve the intended purpose, and provided that a written agreement assuring the retention of the parking spaces is properly executed and filed with the application for the zoning permit.
6. The waiver of yard or setbacks and screening required for a parking area adjacent to a residential district, whenever a wall of approved height, design, and material is erected.

In such cases, the yard requirements shall apply along all edges of the lot, but shall not be required for the internal arrangement of the buildings on the lot, provided that adequate light and air will reach all habitable rooms. Height, bulk and lot area per family shall apply as in the case of one main building located on a lot. An application for the placing of more than one main building on a lot shall be accompanied by a site plan. Proposals for placing more than one residential main building on a lot shall be referred to the Planning Commission for review of the site plan, and Planning Commission approval of the site plan shall be prerequisite to final approval by the Board.
- g. The Board shall hear and approve or disapprove proposals for location of industrial uses in the M-1 District when there is a question concerning the expecting performance of the use and proposals for location of certain conditional uses in the M-1 District. Application shall be made to the Board, or referral shall be made to the Zoning Administrator, the public hearing shall be held, and the applicant, or his agent, shall appear before the Board with drawings of the proposed use and with other evidence, such as expert engineering testimony, to indicate the expected performance of the proposed use. In addition, the Board may accept written or oral testimony from other experts and from the staff of other government or private agencies. In considering the proposed use, the Board shall evaluate the effect on adjacent neighborhoods, other businesses, and industries from the possible emission of vibrations, noise, light, smoke, fumes, odor, or dust.
- h. Violations of conditions are a violation of this ordinance.

- i. A certified copy of any approved variance shall be filed for record by the person or firm granted the variance with the County Recorder and shall include the legal description of the property.
- j. The decisions of the Board of Appeals are final, subject to judicial review in district court.
- k. The Board of Appeals shall keep a record of its proceedings which shall include the minutes of the meeting, its findings, and the action taken on each matter heard.

The existing zoning regulations (texts and maps) of the City adopted as amended, are hereby repealed. This zoning ordinance shall become effective upon its adoption and publication according to law.

The original Ord #66 was adopted July 8, 1996. This copy of the ordinance is with all amendments added since that time.
